(circle one) **YES NO I DON'T KNOW**

Is there anything special about your situation that you would like us to know?

I understand that any animal, even tame cats, can be dangerous when trapped. I agree NOT to open any trap, stick hands or fingers inside of trap or handle any trapped animals unless specifically instructed.

I will not use the live traps to capture any knowingly owned cat, or for any other unlawful act. I will only use it for the purpose of spay/neuter procedures or other necessary medical treatment of a feral cat. Under no circumstances will I trap and relocate the cats in an area other than the exact location from where the cat was trapped.

Any wildlife accidentally trapped will be immediately released upon discovery. No wildlife will be relocated from the location it was trapped under any circumstances.

I release Capital Area Humane Society and its staff, volunteers and facilities from any liability for any injuries or damages that I may incur or cause while trapping, confining transporting or releasing these cats.
